Preparing and Submitting Extension Requests

Thoroughly review *Guide to Advancement* topics 9.0.4.0 and 9.0.4.1 prior to preparing an extension request. In addition, please note the following:

1. The council **MUST** ensure that all advancement records have been updated in ScoutNET before the request is forwarded to the National Advancement Program Team.
2. If the letter requesting an extension is submitted after the Scout's 18th birthday, it is to include the reason for the delay.
3. The council advancement committee is responsible for preparing the extension request form, No. 512-077, not the Scout or the requestor.
4. The council advancement committee chair and advisor select at least two committee members to thoroughly research the circumstances surrounding the extension request. Those researching the request must prepare a summary report of their findings for review by the council advancement committee.
5. The researchers are expected to interview the Scout and those with knowledge of the circumstances surrounding the request. A summary of the interviews must be included with the position statement.
6. The council advancement committee must prepare a position statement, which should include a report of their findings from the research and explain the reasons for their recommendation. How the amount of time requested was calculated must also be included.
7. Prompt and timely review of each request by the council advancement committee is essential.
8. Delays in submitting requests to the council may not be given consideration for additional time to make up for that delay. The Scout should have been advised to continue working on requirements while the request was being processed.
9. Delays by councils in submitting requests to the National Advancement Program Team will not be grounds for granting an extension even if the Scout has completed additional work in the interim. Requests for an extension of time must be considered on their own merits.
10. All requests, letters, and statements **MUST** include the date, name, and signature of the author.
11. All statements should include a clear explanation of timing issues, such as dates of key events including illness, injury, weather problems, family crisis, etc.
12. The documentation submitted must clearly state which requirements remain to be completed as of the date of submission. For example, if the position of responsibility has not been completed, the date it is anticipated to be completed must be included.
13. Merit badges remaining to be completed must be listed in the documentation along with the anticipated completion dates. Merit badges completed but not recorded in ScoutNET **MUST** be listed with the completion date(s) in the extension request documentation.
14. If the candidate's Eagle Scout service project remains to be completed, an explanation must be provided of what the project entails and when the work is anticipated to be completed. If available, a copy of the Scout's project proposal should be included with the extension request documentation. An explanation must be provided if a proposal has not been prepared or it is not yet approved.
15. If the reason for an extension is health related, a statement from a health professional attesting to the nature of the medical issue and how it impedes, or has impeded, the Scout's ability to advance must be included. If the health professional's statement is not specific, other documentation must provide an explanation of how the health issue has affected the Scout's ability to advance. However, do not include an entire medical report with information that can be considered private. (HIPAA laws prevail.)
16. If the Scout has a current Individualized Education Plan (IEP or 504), a summary of the accommodations stated in the IEP should be provided by the council advancement committee. However, do not include the entire IEP or 504.
17. Ensure that all documentation is complete and legible, and that all pages are in the proper chronological order and numbered before the documentation packet is submitted to the National Advancement Program Team. Incomplete documentation will be returned, which will delay processing.
